

RADIANT IMAGING, Inc.: Press Release

RADIANT

Radiant Imaging Names Modern HighTech as Distributor in Korea

16 October
2007
Duvall, WA

Radiant Imaging, Inc. has appointed Modern HighTech as their new distributor in Korea. Effective immediately, Modern HighTech is responsible for sales and support in Korea for the entire range of Radiant Imaging's industry leading line of light and color measurement solutions for imaging, display, and material characterization. Modern HighTech will support both R&D and production market segments.

"We are very excited to have Modern HighTech, a well established distributor of optical design solutions, representing Radiant Imaging in Korea," said Hubert Kostal, Radiant Imaging Vice President of Sales and Marketing. "Modern HighTech's expertise in optical design, along with their outstanding customer support capabilities, will be a great benefit to our Korean customers.

Radiant Imaging will be supporting Modern HighTech with extensive in-country engineering support and product training as well as direct technical support from our headquarters in Duvall, Washington.

About Radiant Imaging. Radiant Imaging, Inc., founded in 1992, is the worldwide leader in imaging systems for light and color measurement, and illumination engineering tools and services. Radiant Imaging's technologies are focused on providing lighting and display system manufacturers with enhanced design capabilities, greater product development efficiency, improved manufacturing productivity and increased competitive effectiveness in the world marketplace. Radiant Imaging's four major product areas include ProMetric® light and color measurement systems; Radiant Sources light source characterization systems and source data; Imaging Sphere systems for characterizing scatter and appearance, measuring luminous intensity and characterizing view angle performance; and Application Engineering Services and Software to support development of application-specific solutions incorporating ProMetric® technology.
